

## SOUTH NEWNHAM

NEIGHBOURHOOD FORUM

Greater Cambridge Partnership  
Cambourne to Cambridge: East of the M11 workshop & Park & Ride workshop  
21 and 22 August 2017

The South Newnham Neighbourhood Forum representative on the LLF is unable to attend these workshops, but the Forum would like to make the following comments:

- The late notice of these events, and the fact that they are occurring during peak holiday time, is unfortunate and will prevent a number of voices from being heard in these workshops.
- These workshops are being held before the Greater Cambridge Partnership is due to publish their 'preferred route' from Cambourne to Cambridge; we question how any useful work can be done without knowing where the busway would go.
- Any participation in these workshops should not be interpreted as agreeing with or endorsing the current GCP Cambourne-Cambridge proposals. We believe it is premature to commit vast sums of public money to a particular (and irreversible) heavy-engineering solution, when there are short-to-medium-term interventions available while a long-term transport strategy is developed with the Combined Authority.
- The Forum will continue to participate in the LLF and contribute local knowledge and experience to the workshops, on this understanding.
