# Western Orbital: Project Update

Local Liaison Forum  
2<sup>nd</sup> February 2017

# The Executive Board Decision

## Western Orbital

**Agreed** to note the responses to the consultation on the Western Orbital bus infrastructure improvement scheme.

The ongoing strategic assessment of the Western Orbital scheme as part of the City Deal programme to support related potential Tranche 1 schemes.

To take a key role in working with Highways England to establish clear priorities along the M11 corridor and for these discussions to form part of the next report on the Western Orbital, and arrange a meeting of City Deal Board and Assembly members and officers and local MPs with Highways England, the minutes of which will appear on the City Deal's website, to press the case for firm commitments from them to improve the M11 west of Cambridge including:

- (a) Making that section of the M11 a “managed motorway” and seek a date for that,
- (b) Improving the motorway junctions, including priorities for junctions 11 and 13.
- (c) Remodelling the Girton interchange.

# The Executive Board Decision

## **M11 JUNCTION 11: BUS ONLY SLIP ROADS**

**AGREED** that the M11 Junction 11 south bound bus only off slip road concept should be integrated into the Western Orbital project ensuring that any strategic transport and economic benefits may be realised and that a sustainable phased proposal can be developed.

# Next Steps

Report to board in July to include

- Assessment of P&R at Junction 11
- Assessment of P&R and P&C at Junction 12
- Assess M11 Junction 11 south bound bus only off slip road concept in conjunction with new or enhanced P&R
- Workshops with stakeholders
