Dear Phil

Please find attached our response to the assumptions and constraints for the Cambourne-Cambridge busway. We have previously submitted a report to you "Cambourne to Cambridge: In-Carriageway Proposals for High Quality Public Transport Scheme" but I am also attaching this again. This document is referred to throughout our response, with a weblink to an online version.

Cambridge Past, Present & Future is responding both as a civic society and as an owner of land that would be affected by the preferred option. The route would bisect farmland that we own and was purchased by our charity in the early 1930s to prevent Madingly Hill and Coton Village from being despoiled by development at a time before the existence of green belts. Covenants were taken out on this land by the National Trust as an additional level of protection and I am copying their Regional Director into our response. If you have not contacted the National Trust directly then I request that you do so.

I trust that you will take our comments into consideration and we would be pleased to elaborate on these if requested.

I would be grateful if someone could confirm receipt of this email.

Kind regards

**James Littlewood** - Chief Executive
