Subject: 350917 Cambourne to Cambridge - Independent Audit Consultation from Shared Intelligence Ltd (Greater Cambridge Planning)

Dear Sir / Madam

Thank you for updating Natural England on the current position with the Independent Audit of the Cambourne to Cambridge Better Public Transport Project. We welcome sight of the statement of the assumptions and constraints underpinning the outline business case and selection of the preferred route for the scheme; however, we have no substantive comments to make on the report.

Apologies for the late response.

Yours sincerely

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

In an effort to reduce Natural England's carbon footprint, I will, wherever possible, avoid travelling to meetings and attend via audio, video or web conferencing.

Natural England offers two chargeable services - the Discretionary Advice Service ([DAS](#)), which provides pre-application and post-consent advice on planning/licensing proposals to developers and consultants, and the Pre-submission Screening Service ([PSS](#)) for European Protected Species mitigation licence applications. These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.

Dear Colleague,

I am writing to update you on the current position with the Independent Audit of the Cambourne to Cambridge Better Public Transport Project.

The statement of the assumptions and constraints underpinning outline business case and the selection of the preferred route has now been published. A copy of the statement is attached and is available on the GCP website. The focus of the audit is on the robustness and continuing appropriateness of those assumptions and constraints.

Interested parties are now invited to submit written representations on the assumptions and constraints and their application throughout the process. Representations should be submitted toby **23 April 2021**.

Thank you and Kind Regards,

Phil
