**Re: Greater Cambridge Partnership: A new road classification for Cambridge**

Dear [REDACTED]

WPC have reviewed the Greater Cambridge Partnership – A new road classification for Cambridge, and would like to make the following comments;

WPC do not believe that some of the changes on the surrounding areas/villages have been taken fully into account in these proposals. WPC believe that due to facilities closing throughout villages, individuals are being forced to go into Cambridge, however options available are limited and therefore make it very difficult for some.

WPC fully support the response submitted by District Cllr Anna Bradnam;

*“This is of concern because in addition to running through the heart of Fen Ditton, the B1047 currently has an 18t weight limit (maximum 2 axles), although it is not enforced. This extract from County mapping showing the current 18t weight limit on B1047 and High Ditch Road. The reclassification does not include High Ditch Road, which would presumably retain the weight limit”.*

WPC feel that there should be a joined-up transport plan between the Cambridgeshire and Peterborough Combined Authority to enable sustainable travel and cost efficiency.

Kind Regards,

[REDACTED]
